

Breaking Down Silos – Networking Event

10:30 – 15:30 on 24th June 2015 at The University of York

University Library, LFA/144 Seminar Room, Harry Fairhurst Building, Campus Central
<http://www.york.ac.uk/about/maps/> (Additional travel documents attached)

The **sigma** North East and Yorkshire Hub is hosting a Networking event to learn from and support each other to deliver good maths and statistic help service.

The day will be a combination of talks and activities and aims to give the delegates an opportunity to consider their individual needs for service development and get ideas from the experiences of the group. We will also continue developing ways of making our support provision more inclusive.

Programme

10:30 – 11:00 Registration with refreshments

11:00 – 11:05 Introduction and Welcome – Chetna Patel

11:05 – 11:20 Maths and Statistics Support at UoY – Francis Duah
