

# **A Layered Approach to Supporting the Numeracy Needs of Health Care Students**

**By David Maynard**

**Numeracy Co-ordinator**

**Faculty of Health, Education and Life Sciences**

**Birmingham City University**

# Historical Perspective

- Trust partners concern with the numerical competence of students and qualified staff.
- Implementation of a numeracy strategy

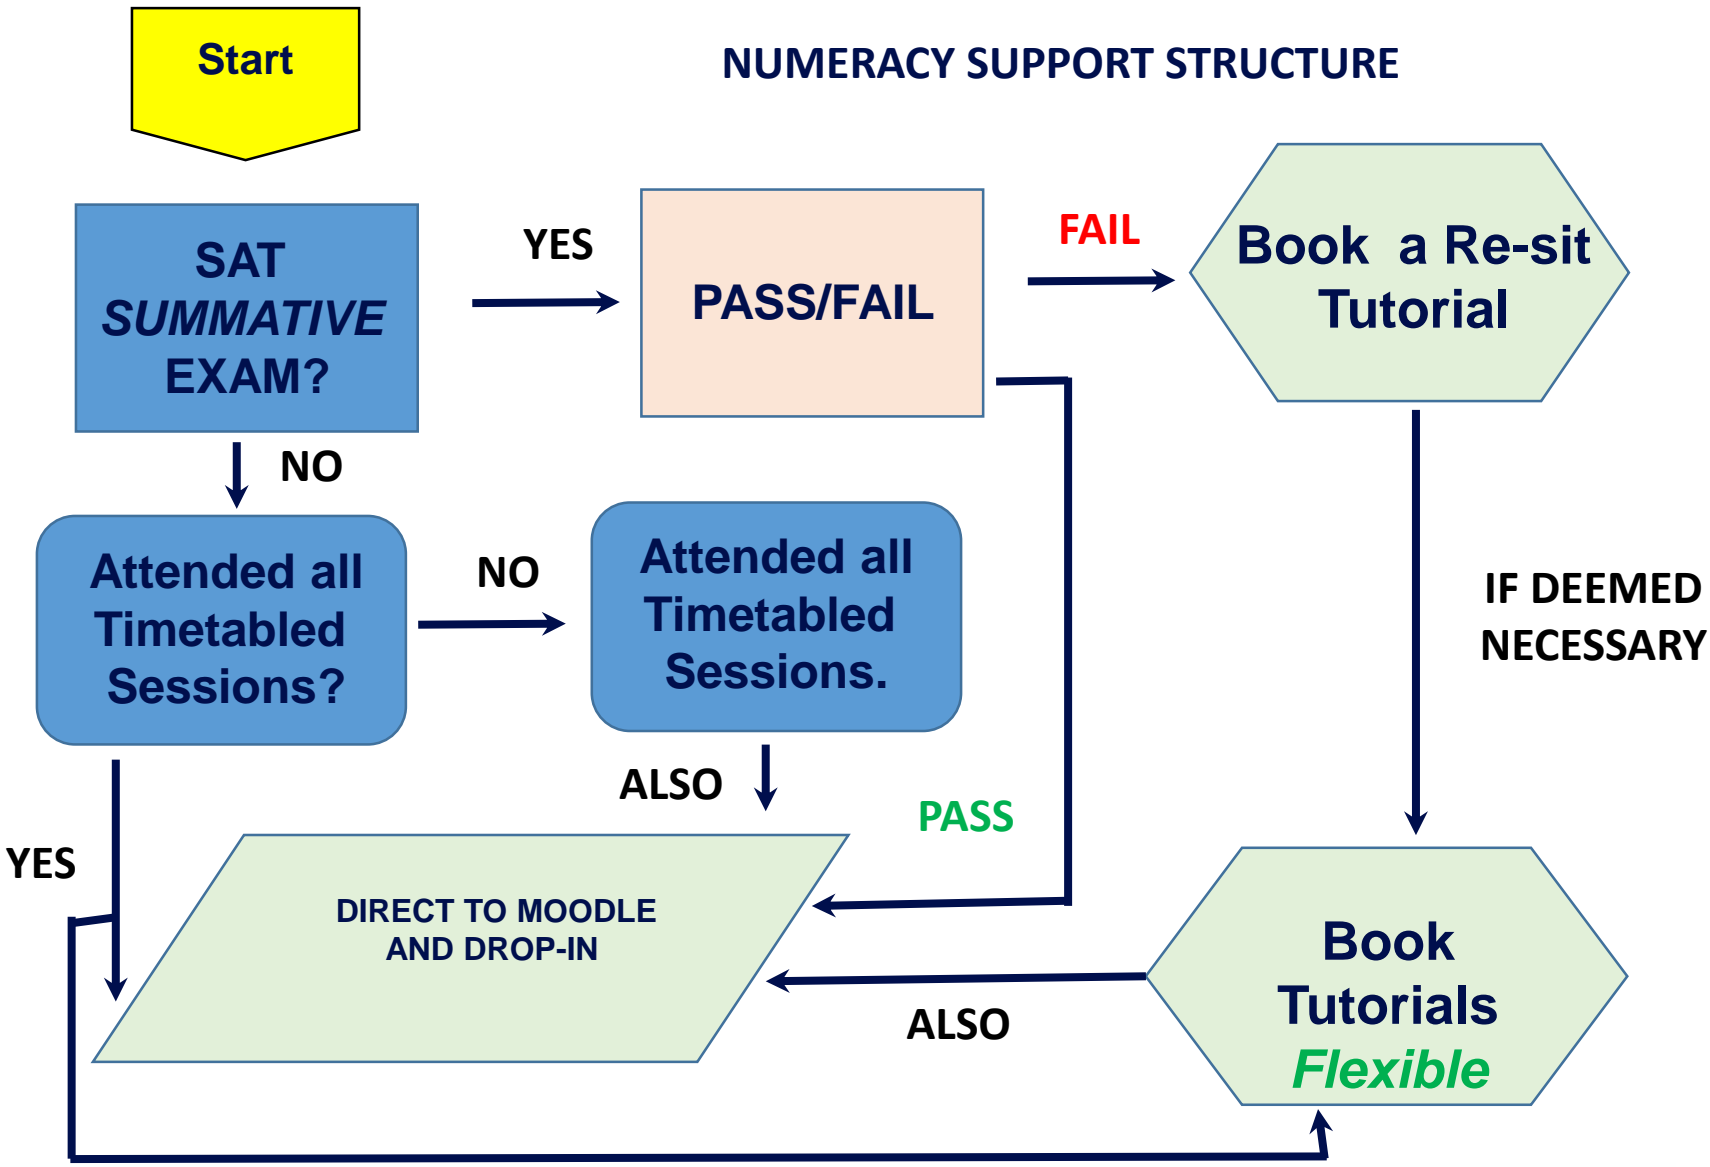

# Numeracy Assessment Strategy

- Staged summative assessments
- Timetabled class workshops
- Bespoke support
- VLE resources

# Filter System of Support

# NUMERACY SUPPORT STRUCTURE

# The one to one tutorial

- Safe non-judgemental learning environment
- Unpacking the problem
- Identifying troublesome knowledge
- Highlight islands of knowledge
- Enhancing self-efficacy

# NPEG

- Aid smooth transition into work.
- Foster partnership and collaboration between stakeholders.
- Sharing of perspectives.
- Make Numeracy testing transparent
